## Clifton

## Alkaline Cleaner

Non-Foaming | Fragrance Free

*Clifton* is a heavy-duty, non-chlorinated, non-foaming, alkaline detergent recommended for pan and tray washing, CIP cleaning, pressure and foam cleaning, and floor cleaning. Formulated especially for use on aluminum, zinc and galvanized metals.

#### DIRECTIONS FOR USE

**For Pan And Tray Wash.** Add at a rate of 1/4 to 2 ounces per gallon of water, by either injecting automatically in to dishwashing machines or add manually to washwater. **For CIP Cleaning.** Dilute 1 to 2 ounces per gallon of water, depending on degree of soil. Circulate through system. Rinse with potable water. **For Pressure And Foam Cleaning.** Dilute 1 to 3 ounces per gallon of water, depending on degree of soil. Apply solution to soiled surfaces; scrub, if necessary, and rinse with potable water. **For Floors.** Dilute 1 to 3 ounces per gallon and scrub floor with an automatic floor scrubber or manually with a broom. Rinse floor thoroughly.

#### WARNING

##### HAZARD STATEMENTS

May cause eye and skin irritation.

##### PRECAUTIONARY STATEMENTS

Wear protective gloves, splash goggles and protective clothing. Wash thoroughly after handling.

##### FIRST AID

**Eye Contact.** Check for and remove any contact lenses. Flush with large quantities of water, holding eyelids open for 15 minutes. Seek medical attention if symptoms persist. **Skin Contact.** Wash skin with copious amount of water. Seek medical attention if symptoms persist. **Inhalation.** Remove to fresh air. Seek medical attention if symptoms persist. **Ingestion.** Do not induce vomiting. Drink copious amounts of water. Seek medical attention immediately.

#### STORAGE

Store in original container protected from sunlight, in a well ventilated area, away from incompatible materials, and food and drink. Avoid heat, spark, open flame and other ignition sources. Keep out of reach of children.

#### SPILL/LEAK

Put on appropriate personal protective equipment. Move container from spill area. Dilute with water and mop up if water soluble or absorb with an inert dry material and place in an appropriate waste disposal container.

#### DISPOSAL

Dispose of material in accordance with local, state and federal regulations.

#### HAZARDOUS INGREDIENTS

Sodium Metasilicate (6834-92-0)  
Diethylene Glycol Monobutyl Ether (112-34-5)  
Ethanol, 2-butoxy phosphate (39454-62-1)
