

Window Rock (Concentrate)

1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

Product Name	Window Rock Concentrate
Product Use	Glass and More Surface Cleaner
Product Code	4620
For Medical Emergency	Call Chemtrec 1-800-424-9300
Supplier's Information	Cleanslate Inc. 1515 East Linden Avenue, Linden NJ 07036

2. HAZARD IDENTIFICATION

GHS Classification.	Skin Irritation, Category 2 Eye Irritation, Category 2A Hazardous to Aquatic Life, Chronic, Category 3	GHS Label Element.	
----------------------------	--	---------------------------	---

Signal Word. Warning

Hazard Statement. Causes serious eye irritation. Causes skin irritation. Harmful to aquatic life with long-lasting effects.

Precautionary Statements. Wear protective gloves, splash goggles, and face shield. Do not breathe mist/vapors/spray. Wash thoroughly after handling. Avoid release to the environment.

Acute Effects

Eyes. Causes serious eye irritation.

Skin. Causes skin irritation.

Inhalation. May cause respiratory tract irritation.

Ingestion. May cause gastrointestinal irritation.

Chronic Effects

Repeated or prolonged exposure may cause skin sensitization or irritation. Harmful to aquatic life with long-lasting effects.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Name of Hazardous Ingredients	CAS No.	WT.%
Dipropylene glycol n-butyl ether	29911-28-2	3-7
Ethanol	64-17-5	1.0-5.0
D-Glucopyranose, oligomers, decyl octyl glycosides	68515-73-1	1.0-5.0
Sodium (C10-C16) alkylbenzenesulfonate	68081-81-2	1.0-5.0
L-Glutamic acid, N,N-diacetic acid, tetrasodium salt	51981-21-6	0.1-1.0
Mixture of magnesium nitrate, 5-chloro-2-methyl-3(2H)-isothiazolone, 2-methyl-3(2H)-isothiazolone	10377-60-3, 26172-55-4, 2682-20-4	0.1-1.0

4. FIRST AID MEASURES

Eye Contact. Check for and remove any contact lenses. Flush with large quantities of water, holding eyelids open for 15 minutes. If eye irritation persists: Get medical advice/attention.

Skin Contact. Wash skin with copious amounts of water. Remove contaminated clothing. Seek medical attention if irritation persists.

Inhalation. Remove to fresh air. Seek medical attention if symptoms develop.

Ingestion. Do not induce vomiting. Rinse mouth with water. Seek medical attention if symptoms occur.

Window Rock (Concentrate)

5. FIRE FIGHTING MEASURES

Suitable Fire Extinguishing Media. Use water spray, fog, or foam. Dry chemical or carbon dioxide may also be used. Product is non-flammable but will support combustion if involved in a fire.

Unsuitable Extinguishing Media. None known under normal fire conditions.

Specific Hazards Arising from the Chemical. Product is non-flammable but may decompose when exposed to fire conditions. In a fire or if heated, a pressure increase will occur and the container may burst. Hazardous combustion products may include carbon monoxide, carbon dioxide, sulfur oxides, and nitrogen oxides. Burning organic components may produce toxic vapors and smoke.

Hazardous Thermal Decomposition Products. Decomposition products may include carbon monoxide, carbon dioxide, sulfur dioxide and other sulfur oxides (from sodium laureth sulfate), nitrogen oxides, and various organic vapors. Dense black smoke may be produced.

Specific Fire-Fighting Methods. Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Use water spray to cool fire-exposed containers and protect personnel. Product may create slippery conditions when mixed with water during firefighting operations.

Specific Protective Equipment for Fire-Fighters. Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Wear full protective clothing to prevent contact with skin and eyes.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions. Wear appropriate protective equipment. Keep unnecessary personnel away. Avoid contact with skin and eyes. Ensure adequate ventilation.

Environmental Precautions. Prevent further leakage or spillage if safe to do so. Do not allow material to enter drains or waterways.

Methods for Containment and Clean-Up. Contain spillage with inert absorbent material. Collect spilled material in sealed containers. Wash area with water. Absorb with inert material such as sand or vermiculite. Prevent entry into drains or waterways. Dispose of according to local regulations.

7. HANDLING AND STORAGE

Handling. Use in well-ventilated areas. Avoid inhalation of vapors or mists. Avoid contact with eyes, skin, and clothing. Do not eat, drink, or smoke while handling. Wash hands thoroughly after handling.

Storage. Keep containers tightly closed in a cool, dry, well-ventilated place. Store at ambient temperatures, preferably below 25°C (77°F).

Window Rock (Concentrate)

8. EXPOSURE CONTROLS/ PERSONAL PROTECTION

Ingredients Name

Ethanol	1,000 ppm (1,900 mg/m ³)
Dipropylene glycol n-butyl ether	50 ppm (Dow IHG)

Exposure Limits

Engineering Controls:

Provide adequate general ventilation. Local exhaust ventilation is recommended where vapors or mists may be generated.

Personal Protective Equipment

Eyes. Wear chemical goggles or a face shield to protect against splashes. Eyewash stations should be available in the immediate work area.

Body. Wear nitrile gloves and protective clothing to prevent skin contact. If prolonged or repeated exposure is expected, use impervious gloves and clothing.

Respiratory. Under normal conditions of use, respiratory protection is not required. If exposure limits are exceeded or if handling generates vapors or mists in poorly ventilated areas, use a NIOSH-approved organic vapor respirator.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical State

Liquid

Color

Clear, aqua-blue

Odor

Citrus mint

pH

7-8

Flash Point

>93°C (>200°F) - Not Flammable

Boiling Point

Not available

Solubility

Water-soluble

Relative Density

0.99

Viscosity

15-20 cPs at 25°C

10. STABILITY AND REACTIVITY

Stability. Stable under normal conditions.

Possibility of Hazardous Reactions. May react with strong oxidizers.

Conditions to Avoid. Heat, open flames, sparks, and incompatible materials.

Materials to Avoid. Strong oxidizers, aluminum, copper, and other incompatible metals.

Hazardous Decomposition Products. Carbon monoxide, carbon dioxide, and nitrogen oxides.

11. TOXICOLOGICAL INFORMATION

Product/Ingredient Name	Result	Species	Dose
Ethanol	LD50 Oral	Rat	7,060 mg/kg
Dipropylene glycol n-butyl ether	LD50 Oral	Rat	2,124-5,500 mg/kg
Sodium (C10-C16) alkylbenzenesulfonate	EC50	Daphnia	>100 mg/L

Acute Effects

See Section 2 for details.

Chronic Effects

No known critical effects or critical hazards at intended use concentrations.

Window Rock (Concentrate)

12. ECOLOGICAL INFORMATION

N/A

13. DISPOSAL CONSIDERATIONS

Disposal of Waste

Dispose of contents/container in accordance with local, state, and federal regulations.

Contaminated Packaging

Dispose of as unused product.

14. TRANSPORT INFORMATION

16. OTHER INFORMATION

To the best of our knowledge, the information contained herein is accurate. However, neither the above named supplier nor any of its subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information. Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist.

Date of Issue: 06/18/2025

***Hazard Determination System (HDS):**

Health	2
Reactivity	0
Flammability	1

*NOTE: Hazard Determination System (HDS) ratings are based on a 0-4 rating scale, with 0 representing minimum hazards or risks, and 4 representing significant hazards or risks. Although these ratings are not required on SDSs under 29 CFR 1910.1200, the preparer may choose to provide them. HDS ratings are to be used with a fully implemented program to relay the meanings of this scale.
